

# AKIRA

INNER / SPACE

design by Jun Yasumoto

Jun Yasumoto designed AKIRA as a solution for a wide variety of contexts and uses. The collection consists of shells and frames that are totally interchangeable with each other and can be customised in colours and upholstery.

The shells of the chairs, armchairs and stools are made of glass-fibre reinforced polypropylene, thus achieving the perfect mix of lightness and durability.

**we  
believe in**

**100%  
recycled  
plastic**

**sustainable  
design**

## DESIGNER

### Jun Yasumoto

After graduating from ENSCI-Les Ateliers (Paris) in 2001, Jun Yasumoto established himself as an independent designer and began collaborating with Jasper Morrison Office for Design in 2002, working on the development of numerous furniture, product, lighting and tableware design projects. In tandem, he developed his independent career, working with clients such as Fucina, Memo Furniture, Bosc, Industry Plus, Ligne Roset and Kohler Group.
