Fuld Nesting Chair

Our first horizontal stacking chair, Fuld has a crisp design that both reimagines and sets a new reference point for seating that stacks together when not in use, saving on space. Designed by Stefan Diez, Fuld eschews the typical X shape for a sleek inverted Y with tubular arms. The back has a touch of elasticity, which keeps you comfortable as you shift. With Fuld, the modest horizontal stacking chair gets the respect it deserves.

Designer
Stefan Diez

Benefits

- Seat effortlessly flips up for easy, limitless stacking.
- A contoured seat and a back that flexes provide surprising comfort.
- A playful colour palette, including an optional 3D Knit textile, allows Fuld to blend in or stand out.
- Chairs can be endlessly reconfigured for any purpose or to fit any space.

Warranty
12 years
