Passport™ Work Table

INNER / SPACE

A workspace for any place

### Passport Work Table

Your home office. The living room. A studio bedroom. Pulled over to a comfortable office nook. Grouped together for a study session. Anywhere can be your perfect workspace with a desk that moves with you. Height-adjustable, with an intentionally compact lightweight design, Passport is the just-right table for the moments you need it.

INNER / SPACE

## Make anywhere work for you

Passport features an untethered height-adjustable design, so you can move your table wherever you need to. Its single-column base and lightweight design make it all the easier: pull it up to wherever you're working and, just like that – an instant workspace.

## Comfort at any height

Passport's simple, intuitive lever allows you to smoothly adjust your table for a range of heights, giving you flexibility between sitting and standing and offering comfort at any posture. With a 305 mm range for the small table and 458 mm for the large, Passport can find a spot that works in many settings.

Passport is available in 2 sizes: small (559 mm x 406 mm surface) and large (686 mm x 508 mm, enough surface space for a laptop, notebook and beverage).

Featuring an untethered height-adjustable design, Passport's pneumatic lift provides height-adjustability without needing to plug into a power source.

An optional Privacy Screen and Bag Hook work well with the large table, adding warmth and boundary, and a spot to place your bag. Available in a variety of colours.

### Small footprint, big function

Passport is intentionally compact in design, large enough for the essentials and small enough for tight spaces. It's available in two sizes, with enough surface space for a laptop, notebook and your favourite beverage. Add the optional Bag Hook or screen to make it work even harder – all without increasing the footprint.

Passport is introducing a new, plywood edge. It's available paired with a variety of the surface finishes.

# Materials

## Passport Work Table

<b>Top Laminate</b>
